Objectives :

Innovative Repair Materials and Chemicals are emerging for the construction industry through which the building maintenance costs can be reduced considerably and more life can be added to the structures. However, it won't be surprising if the fraternity of Civil Engineering Profession is not well informed of the developments taking place in the field. Hence, with a view to impart the latest information on the subject a Two-Day Seminar on "Innovative Repair Materials and Chemicals" has been organised jointly with the Indian Society of Structural Engineers at the IEI, MSC premises on 30-09-2005 (Friday) and 1-10-2005 (Saturday).

Needless to mention that the topic is of utmost social and professional importance and the same can be exploited for business development and simultaneously to discharge the social responsibility.

Here we intend to give purely technical information about the material as an information only and not as an advertisement of any specific brand / material.

Target Audience :

All personnel in Civil Engineering and related fields including Structural Designers, Architects, Builders, Site Supervisor and Students of Civil Engineering & related fields will find this seminar very useful.

Fees :

For Member of IE(I), ISSE/PEATA/ACI/BAI/ICI	— Rs. 800/-
For Non Members	— Rs.1,000/-
For Students	— Rs. 400/-

Which includes seminar documents, Lunch, Tea & Snacks.

Interested organization may join us as sponsors / advertisers.

About ISSE

'Indian Society of Structural Engineers' (ISSE) was founded on 29th Jan 1998 by ten advisory trustees as its initial members under the leadership of great visionary & eminent engineer Late R. L. Nene and its membership is now spreading all over India, currently ISSE has more than Seven Hundred Members who are mainly structural Engineers. ISSE was founded in response to unique problems plaguing structural engineers for years. Since there was no professional institution solely dedicated and devoted to the cause of structural engineers in India, it fulfils the great need which has been felt for many years. The goal of ISSE is to enhance the dignity of structural engineers and to evolve suitable norms for their responsibilities and remunerations, to bring about brotherhood and unity among the fraternity.
